

Assessment Critique

****Document ID:**** critique-v1

****Date:**** 2026-08-31

1. Document and Package Inconsistencies

1.1 Inconsistencies Identified

1.2 Verified Inconsistencies

2. Critique of Current State

2.1 Strengths

- Comprehensive pre-specification
- Two approaches per claim
- Explicit assumptions documented
- Locked analysis with provenance

2.2 Weaknesses

- Identification failures prevent causal claims
- No ground truth for labels
- Small cluster count
- Short post-switch period

3. Summary

The assessment is rigorous in methodology but constrained by data limitations. The main critique is

This critique documents verified inconsistencies without exaggeration.
